## SCHOOL OF FOREIGN LANGUAGES

January 17, 2022

Staff of the Chair of foreign languages and methods of teaching  
Oleksandr Dovzhenko Hlukhiv National Pedagogical University  
Ukraine

Dear colleagues!

As a representative of the teaching staff of our University I would like to demonstrate my support to the Programme of training intending foreign languages teachers at your University. In 2019 the student of Bachelor programme in foreign language of your University Anastasiya Samofal participated in students' exchange programme at the School of Foreign Languages, Afyon Kocatepe University in the frames of the agreement between our Universities. Anastasiya attended my English classes with students. It should be noted that she demonstrated the sufficient level of the theoretical and practical training for planning, developing and conducting English lessons.

In 2021 my students and I had the online meeting with the Ukrainian students of the programme. The meeting was live enough in terms of students' communicative skills. During the meeting we discussed different aspects of the education process in both countries in the conditions of COVID restrictions. Both the Turkish and Ukrainian students exchanged information on their hobbies and free time activities. The meeting was useful for developing students' communicative skills and activating interest in the other countries life. Their level of English was sufficient for the efficient communicating with the Turkish students.

Again, I am expressing the support to the educational programme of training intending foreign languages teachers at Oleksandr Dovzhenko Hlukhiv National Pedagogical University.

Respectfully,  
Ilyas SAYKILI  
Instructor of English Language  
School of Foreign Languages
